## **Prof. Dr Klaus D. Kapellmann\***

Prof. Dr Klaus D. Kapellmann founded our law firm in 1974 as a sole practitioner in Mönchengladbach and has since developed it into one of the leading national law firms with eight offices thanks to his entrepreneurial spirit and innovative strength.

His milestones in the firm's development include innovations such as

- 1990 and 1993 respectively, the two-volume work 'Kapellmann/Schiffers' with the hitherto unique author combination of a lawyer and a construction manager
- the product development 'JurProM<sup>®</sup>', legal project management for the complete legal management of major projects,
- in 2004, together with Schiffers, the founding of his own consulting engineering firm 'Prof. Schiffers BauConsult', also a unique constellation at the time
- 'Bauconsult', legal project management not for the individual project, but internally for the company

Prof. Dr Kapellmann has advised on a large number of major projects, including the new Cologne / Frankfurt railway line, the construction of the European Central Bank and numerous power plant projects. Most recently, he acted as arbitrator or expert witness in major disputes.

He was a specialist lawyer for construction and architectural law and also authored numerous standard works on private construction law as well as managing editor of the journal NZ Bau. He was also an honorary professor at the RWTH Aachen University.
